EXPERIENCE

Capital One — Associate Business Analyst

Dallas, TX | February 2027

- Selected for Capital One's Analyst Development Program, a highly selective full time program focused on data-driven decision-making, product strategy, and business operations

Lumeria LLC — Data Systems & Automation Intern

Richmond, TX | January 2025 – Present

- Built SQL-driven data pipelines on AWS (S3, EC2) feeding Power BI dashboards that track velocity, margins, and throughput across operations
- Automated SQL pipelines, reducing manual reconciliation time by 70%.
- Designed standardized documentation, onboarding workflows, and access control policies for internal systems, improving cross-team consistency and auditability.

Aquila Engineering — Operations & Product Intern

Houston, TX | June 2025 – September 2025

- Automated upstream reporting in Power BI, reducing prep time 80% and errors 90%.
- Built department dashboard improving visibility and response time by 30% across three teams.
- Designed Monday.com and SharePoint workflows standardizing field ops and IT requests.
- Authored SOPs for IT and cybersecurity, aligned to SLA requirements, improving compliance by ~22%.

PROJECTS

LEDGR Technologies – Product Lead

- Led product from concept to launch, including membership management, billing, collections, POS, and AI churn scoring for fitness facilities.
- Designed franchise-ready architecture with multi-location support, white-label portals, and network analytics.

alto ai – Solo Build

- Built an AI receptionist that answers calls instantly, books appointments, and captures leads 24/7 in English and Spanish.
- Shipped end-to-end product solo, including AI voice infrastructure, analytics dashboard with transcripts, marketing site, and pricing model.

INVNCIBLE – iOS Developer

- Shipped an iOS gym membership app with QR check-in, Apple Wallet integration, rewards tracking, and community features.
- Achieved 5.0 App Store rating with 300+ users.

Let's Be Ready 501(c)(3) Nonprofit – Solo Build

- Built a website and headless CMS using Sanity for a nonprofit running preschools in Guatemala.
- Delivered three iterations based on user testing, reducing CMS task time from 40 minutes to 3 minutes.
